Governor Rotimi Amaechi of the APC and Rivers State promised us "change". He is seen here trying to cover up the dollars "change" in his jacket pocket.

He is known to like to carry around "loose change" for "runs girls".

He was in London last December and kept two presidential suites at the Park Lane Hilton and the Dorchester. Cristal champagne was flowing in his suite and it was also overflowing with "runs girls".

On one Friday night, our source counted at least six, one from Switzerland, one flew in from the US, two were London-based and two came from Russia. Each got \$10,000 dollars for their time.

This is definitely the sort of "change" nobody can complain about!
